

SKIP THE STRAW

## HELP PREVENT OCEAN PLASTICS ONSHORE

Year after year, straws rank in the top ten most collected items globally during Ocean Conservancy's International Coastal Cleanup. Plastics pollute our beaches, waterways and ocean, threatening animals including birds, dolphins and endangered sea turtles.

### ENJOY YOUR DRINK AND **SKIP THE STRAW!**

**SKIP:** Skip the straw to prevent more straws from potentially reaching the ocean.

**STICK:** Stick plastics in the bin. If you need to use a straw, ensure the straw (and its wrapper) are disposed of properly.

**SEEK:** Seek reusable alternatives to single-use plastics, including straws.

Pledge to skip the straw: **Text STRAW to 69866.**  
For more details about the **Skip the Straw** movement and how to join a cleanup, visit **[www.OceanConservancy.org](http://www.OceanConservancy.org)**
